EDUCATION

Ingraham Polytechnic

June 2021 – July 2023

Diploma in Information Technology

Ghaziabad, Uttar Pradesh

- Successfully completed my studies in the IT branch of Polytechnic at Ingraham Polytechnic, Hapur.
- I have hands-on experience as a Fullstack Developer, specializing in MERN and its related technologies. I'm eager to take on real-world projects.

TECHNICAL SKILLS

Programming Languages: C++, JavaScript,
Web Development: HTML, CSS, JavaScript, Bootstrap, Tailwind, React.js, Node.js
Databases: MongoDB
Web Frameworks: Express.js
Version Control: Git, GitHub
Developer Tools: VS Code, Netlify, Vercel
Soft Skills: Effective Teamwork, Collaborative Problem Solving, Efficient Task Management

EXPERIENCE

Scrimba

June 2023 – August 2023

Mern Developer Intern

Online

- Played a key role in enhancing my web development skills, focusing on user interface design, and mastering React.js.
- Collaborated on real-world frontend projects, developing dynamic and visually appealing web applications.
- Took part in code reviews and actively contributed to the development of engaging and user-friendly interfaces.
- Ready to handle difficult web development tasks with a strong focus on creating outstanding user experiences.

Apple Tree

Oct 2022 – Dec 2022

Frontend Developer Intern

- Designed and implemented user-friendly dashboards, sign-in, and sign-up pages, optimizing the user experience and ensuring efficient data storage.
- Developed reusable components using HTML, CSS, JavaScript, React, and responsive design for various devices.
- Collaborated on team projects, organized tasks with Git, and focused on React-based development.

PROJECTS

E-Commerce Platform | React, Node.js, Express.js, MongoDB, REST API

June 2023

- Developed a feature-rich E-Commerce platform using a technology stack including React, Node.js, Express.js, and MongoDB.
- Implemented essential functionalities, including user registration and login, shopping cart, wishlist, and product comparison features.
- Designed and optimized the user interface to provide a seamless shopping experience.

Movie Website | React, React Router, Redux

April 2023

- Developed a dynamic movie website using React, React Router, and Redux, seamlessly integrating real-time movie data from the TMDB API.
- Implemented a user-friendly interface that allows users to browse and explore movie details, including cast, trailers, and reviews.
- Enhanced the user experience by enabling seamless navigation between different movie pages, providing a comprehensive cinematic resource for users.

Learning Website | HTML, CSS, JavaScript

October 2022

- Collaborated on crafting a user-friendly interface for an e-learning website.
- Created features to provide educational content and resources.
- Utilized web technologies, including HTML/CSS, JavaScript, and AOS (Animate On Scroll).
